

Nests

Any nest that you create, as well as any nest that is shared with you or your organization, will be listed on your Nests Home page. This should be the access point for building and editing nests in Nested Knowledge!

Navigate to Nests page

To navigate to Nests, go to the [Nested Knowledge homepage](#).

From there, once you have [Signed In](#), you should see a Nests button in the upper right. This will be durable throughout any page in AutoLit.

Manage Nests

Once on the Nests page, your primary activity will be to access and organize nests. You may access the AutoLit and Synthesis portions of nests from this page.

Create & Access Nests

- To learn how to **create a nest**, see [here](#).
- To learn how to **use our Demo nests** to practice, see [here](#).
- To access an existing nest, select it from the list of Nests, or use the Search bar.

Nests are ordered by most recent access and columns provide nest names, owners, numbers of

records, records included, nest creation date, access date information as well as links to the AutoLit and Synthesis portions of your nests:
