

# Edit References

All information in a reference can be edited from [Study Inspector](#) or within each module.

## 1. Navigate to the reference

## 2. Click the Edit button

The button is found at the lower right of the reference information.

## 3. Add, remove, or modify the information.

In the modal that appears, any Bibliographic Data can be changed by typing in the relevant field.

### Changing Author Order

Author order can be modified using the buttons to the right (red box in the image below).

- Authors can be reordered using the arrows to the side.
- Authors can be removed using the minus button next to the author's name.
- Authors can be added below any existing author using the plus button next to the existing author's name.
