

Meta-Analysis Software

This page is under construction. Want to contribute? [Contact us.](#)

Different software applications are able to perform a meta-analysis (Muka et al., 2020).

STATA

The “metan” command in STATA is a simple way to perform a meta-analysis: [Meta-analysis in Stata](#)

R

The meta-analysis package “meta” in R is a free way to perform meta-analyses. [Meta package](#)

RevMan

Review Manager (RevMan) was developed by the Cochrane Collaboration. [RevMan](#)

Excel

Excel add-ons such as MetaEasy or MetaXL. [Meta-analysis download for Excel](#)
