

Nested Knowledge Docs

Welcome to documentation for the [Nested Knowledge](#) systematic review software! This page contains information about how to use NK to complete and interpret reviews. Use it to search or share information with our community of researchers!

Nested Knowledge Overview

For an overview of the software's capabilities, see the video below by our Chief Design Officer!

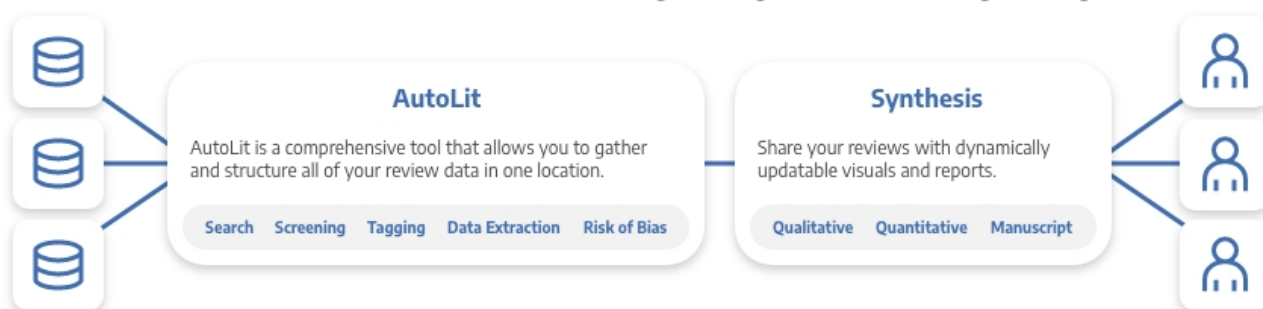

Video

This flow diagram shows the steps to complete your review in [AutoLit](#) and present your findings in [Synthesis](#).

AutoLit + Synthesis

How does it work? Two tools: one for knowledge flowing in, one for knowledge flowing out.

Learn More:

- To start reviewing, make an account and get started in [AutoLit](#).
- To learn more about presenting data from your review, go to [Synthesis](#).
- To learn about how to complete a systematic review, we offer:

- A free course on [How to Review the Medical Literature](#).
- A Best Practices [Review Guide](#).

Accessing the Documentation

Video

- We recommend that you bookmark [this page](#) to enable easy access to the Documentation throughout your review.
- If you ever have a question about a specific step during your review, click the question mark in the upper right of any AutoLit or Synthesis page to open the Documentation for that specific page.
