

Other Sources

If you have any “Expert Additions” (Studies that were not found by AutoLit, but should be included in screening and subsequent steps), that are indexed on PubMed, you can manually add them to your Nest. There are two ways to add individual references

1. Entering the [PubMed ID \(PMID\) or DOI](#)
2. Entering the [study information and URL](#).
3. Uploading the full texts.

We recommend using PMID or DOI.

I. Add References using Unique Identifiers (DOI or PMID)

1. Navigate to Individual References

From the Nest menu, select “Add Individual References”

The screenshot shows a software interface for 'Acute Ischemic Stroke - RCTs'. On the left is a sidebar menu with categories: Nest Home (Dashboard), Literature Search (2/2), Screening (335/343), Tagging (17/17), Extraction (17/17), Risk of Bias (17/17), Synthesis, and Admin. The 'Other Sources' option under Literature Search is highlighted with a red box. The main content area has tabs for 'Show Table of Contents', 'Protocol', 'Description', and 'Materials'. It contains sections for 'Research Question:', 'Background:', and 'Search Strategy:'. The 'Background:' section includes text about intravenous alteplase and mechanical thrombectomy, with several hyperlinks to medical literature.

2. Search for the study to find the DOI

In a separate tab, search for the study copy the DOI or PMID.

ORIGINAL ARTICLE

Endovascular Thrombectomy with or without Intravenous Alteplase in Acute Stroke

Pengfei Yang, M.D., Yongwei Zhang, M.D., Lei Zhang, M.D., Yongxin Zhang, M.D., Kilian M. Treurniet, M.D., Wenhao Chen, M.D., Ya Peng, M.D., Hongxing Han, M.D., Jiyue Wang, M.D., Shouchun Wang, M.D., Congguo Yin, M.D., Sheng Liu, M.D., [et al.](#), for the DIRECT-MT Investigators*

Add by Identifier

Add by Article ID

PubMed ID

Enter a single or comma separated list of identifiers. Bibliographic data will be automatically imported from PubMed or CrossRef

Add Manually

You can add multiple studies at once by listing the DOIs or PMID separated by commas.

Your reference will appear at the top of the page.

Add Manually

II. Add References using the URL

For clinical trials, news articles, and other data sources that lack a PMID, you can enter information manually.

1. Fill in Study Information

To fill in the study manually, you have fill in the title, at least one author, and a link.

Title:

Arthroscopic Partial Meniscectomy versus Sham Surgery for a Degenerative Meniscal Tear

Abstract:

Arthroscopic partial meniscectomy is one of the most common orthopedic procedures, yet rigorous evidence of its efficacy is lacking. We conducted a multicenter, randomized, double-blind, sham-controlled trial in 146 patients 35 to 65 years of age
