

# Nest Dashboard

**Nest Dashboard** allows researchers to stay up to date with the progress of their review and track engagement through [Synthesis](#) view counts.

## View Contributions

View nest activity in a specified time period: the last week, month, year, or all time.

The screenshot shows the Nest Dashboard for 'Hematological malignancies'. It features a sidebar with navigation options like 'Nest Home', 'Literature Search', 'Screening', 'Tagging', 'Extraction', 'Study Inspector', and 'Synthesis'. The main area contains three primary charts: 'Activity' (a stacked area chart showing activity from Aug 2021 to Aug 2022 with filters for Week, Month, Year, and All), 'Workflow' (a funnel chart showing stages from Search to Excluded, Unscreened, Included, Untagged, Tagged, and Extracted), and 'Engagement' (a summary of view counts: Synthesis Home Views: 146, Qualitative Synthesis Views: 53, Quantitative Synthesis Views: 31, Manuscript Views: 15). Below the Activity chart is a 'User Contributions' table.

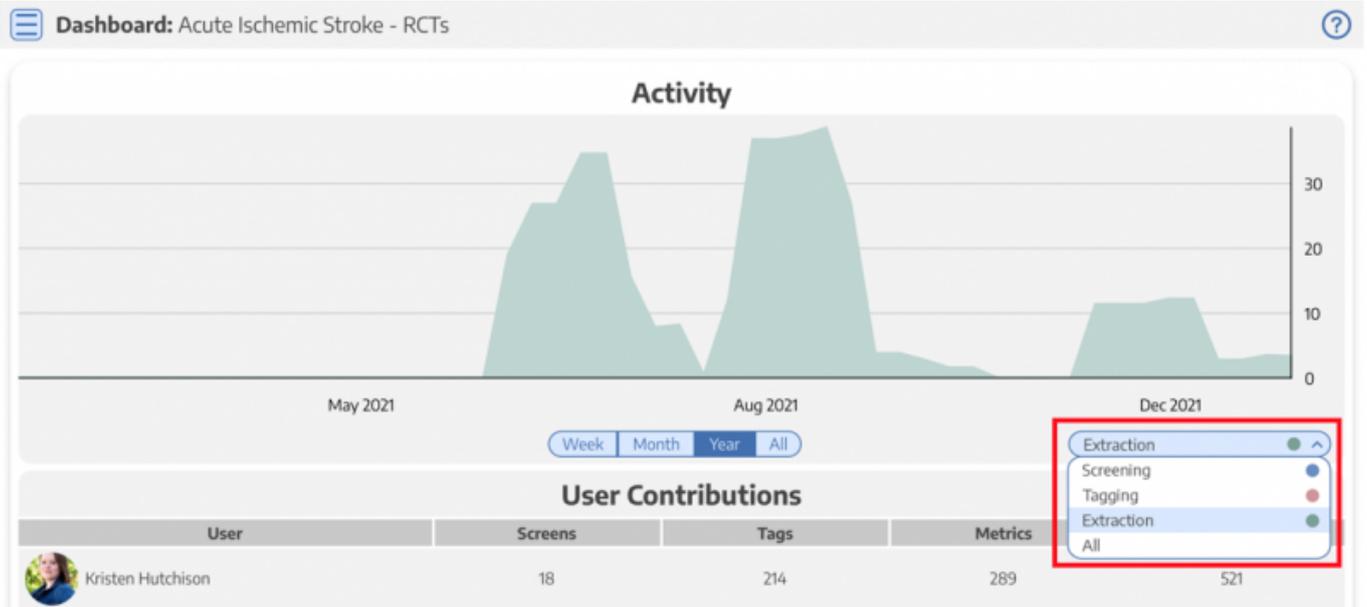

User	Screens	Tags	Metrics	Total
Nicole Hardy	229	57	285	571
Mansi Mehta	173	163	145	481
Jade Thurnham	94	172	166	432
Jeevan Shivakumar	80	26	69	175

**Metrics** refers to extracted data elements.

## Filter by Stage

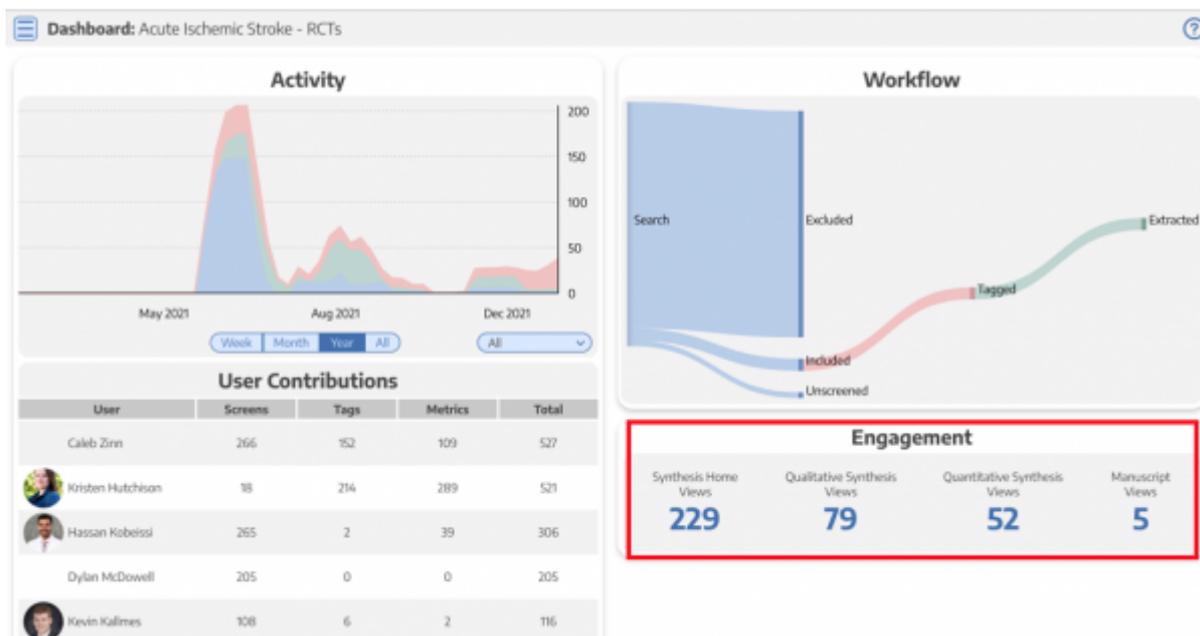

Filter activity by the stage of the Systematic Review.

Living systematic reviews undergo revisions and updating. For such reviews, you can expect to find an activity pattern with multiple peaks corresponding to the initial round, as well as subsequent updates.

## View Nest Engagement

Nest outputs can be configured to be public or private. Check the amount of times that people have viewed the nest outputs. For public nests, these measures approximate engagement with the data and visuals.

You can discuss the progress of a Nest with the [Comments](#) feature.
