Meta-Analysis Software

⚠️ This page is under construction. Want to contribute? Contact us.

Different software applications are able to perform a meta-analysis (Muka et al., 2020).

STATA

The "metan" command in STATA is a simple way to perform a meta-analysis: Meta-analysis in Stata

R

The meta-analysis package "meta" in R is a free way to perform meta-analyses. Meta package

RevMan

Review Manager (RevMan) was developed by the Cochrane Collaboration. RevMan

Excel

MetaEasy is an add-in for Microsoft Excel that automates many meta-analysis processes and provides support for the task. MetaEasy download for Excel
