

Demo Nests

Want to try out Nested Knowledge, but don't have a research question in mind? Don't want to make an upfront time investment building a nest? No problem, see how both AutoLit and Synthesis work from complete examples! The below links are walkthroughs of demos you may open from your [AutoLit Home](#) and clicking "Demo Nests" on the left hand side.

AutoLit
Create or select a nest to search, screen, tag, and extract data from studies for a specific review.

COVID-19: Anti-virals

- Our [COVID-19: Antivirals](#) nest was [published](#) in BMC Infectious Disease in January 2022. You can use a copy of the nest to practice searching the COVID-19 literature.

Osteoarthritis: Tanezumab

- Our [Osteoarthritis: Tanezumab](#) nest examines the safety and efficacy of different doses of Tanezumab, a therapeutic that recently underwent [FDA scrutiny](#) for adverse events in high dose ranges.

Heart Failure: ACE Inhibitors & ARBs

- Recent advances in ARBs, a new class of drug for heart failure with reduced ejection fraction, inspired our [Heart Failure: ACE Inhibitors & ARBs](#) nest. Here, we compare the more conventional drug class (ACE Inhibitors) against ARBs.
