Accessibility

Nested Knowledge's AutoLit review platform is free to use by institutional-affiliated users for non-commercial purposes.

Keyboard Access

- Our study inspector tool allows you to filter studies based on inclusion status and title/abstract by typing.
- When screening, you can add exclusion reasons on the fly by typing.
- When tagging, you can add new tags on the fly by typing

Text Resizing

To increase the text size, click the keys CRTL and + (for PC) or COMMAND and + (for Mac

Color

Highlighting is visible with inverted colors.

Writing

Our manuscript editor is built on a text editor that supports screen readers and bidirectional text.
